OBJECTIVE

As a dedicated Bachelor of Arts in Computer Science and Mathematics student at Delhi University, my objective is to leverage my interdisciplinary knowledge to contribute effectively in a dynamic work environment. I aim to apply my analytical skills, programming expertise, and mathematical proficiency to solve complex problems and drive innovation in the realm of technology. Seeking opportunities to collaborate with diverse teams, I aspire to grow professionally while making meaningful contributions to the organization's objectives and goals.

Graduation (2022-2026)	P.G.D.A.V(M) COLLEGE	University of Delhi	Bachelor of Arts(programme) Computer Applications+Mathematics
Senior Secondary School (2020-2022)	ARAVINDA VIDYAMANDIRAM	CBSE	Science
High School (2020)	St. MARY'S SCHOOL	ICSE	English, Mathematics, Social Science, Computer Science, Science, Hindi

WORK EXPERIENCE

-Techwhiz

Member

P.G.D.A.V. COLLEGE

January '23 - Present

- Organizing workshops and seminars on various topics related to information technology such as programming languages, web development, cybersecurity, data analytics, artificial intelligence, etc. These events can be conducted by industry experts, professors, or senior students to share knowledge and insights with members..
- Hosting hackathons, coding competitions, and programming contests to provide students with opportunities to apply their skills, solve real-world problems, and showcase their talents. These events also encourage teamwork, creativity, and innovation among participants.
- Being part of an IT society has contributed a lot to my personal growth. It has taught me leadership skills, teamwork, communication skills, and time management. We often have opportunities to take on leadership roles, organize events, and collaborate with diverse teams, which has helped develop essential soft skills that are valuable in any career path.

P.G.D.A.V. COLLEGE

September '23 - Present

- The society organizes technical workshops and seminars on emerging technologies, programming languages, software development methodologies, and other relevant topics. These events help members stay updated with the latest trends and developments in the field of computer science.
- The society offers skill development initiatives such as coding boot camps, algorithmic training sessions, and technical interview preparation workshops to help members enhance their programming, problem-solving, and software development skills.
- Through workshops, seminars, and coding competitions, we could enhance our technical skills in programming languages, software development methodologies, and emerging technologies. This skill development is invaluable for academic pursuits and future career opportunities.

ROLES AND RESPONSIBILITIES

- Stood as volunteer for many seminars organized by the college.
- Helped in preparing questions for different coding competitions and quizzes organized.

ACHIEVEMENT And CERTIFICATION

- Secured second position in the coding competition organized in the college.
- Secured second position in the quiz competition organized in the college.

SKILLS

- MS Excel
- Python
- Java
- C++
- Time Management
- MySQL
- Adaptability and flexibility
